EXHIBIT I
(Questions 27-32)

A description of this transaction is contained in Volume One, Section II of this filing. The Merger Agreement for this transaction is set forth in Volume Three, Section D.

EXHIBIT II
(Questions 51-53)

The parent corporation of In-Flight Phone Corporation ("In-Flight") is In-Flight Phone Holdings, Inc. ("IFP"), a Delaware corporation. The address of IFP is 1146 19th Street, N.W., Suite 200, Washington, D.C. 20006. By virtue of a holding of more than 70 percent of IFP's total capital stock (i.e., 45% voting stock plus non-voting equity shares), the de facto control of IFP is with MCI Telecommunications Corporation ("MCIT"), a Delaware corporation. MCIT is a wholly-owned subsidiary of MCI Communications Corporation ("MCIC"), a Delaware corporation. The address of MCIT and MCIC is 1801 Pennsylvania Avenue, N.W., Washington, D.C. 20006. Following the merger, British Telecommunications plc ("BT") will have a 100 percent controlling interest in MCIC.

BT is not controlled by any other corporation. Organized and existing under the laws of England and Wales, BT is a corporation directly or indirectly controlling a corporation which is a common carrier radio licensee pursuant to Section 310(b)(4) of the Communications Act. However, BT is not a common carrier radio licensee pursuant to Sections 310(b)(1)-(3) of the Communications Act. Information about the citizenship status of the officers and directors of In-Flight, IFP, MCIT, MCIC and BT is set forth in Volume Three, Section B of this filing. Additionally, although foreign citizens hold more than 25 percent of BT's shares,

EXHIBIT II
(Continued)

BT estimates that upon consummation of this transaction at least 35 percent of its shares will be held by US citizens.

A detailed description of this transaction is contained in Volume One, Section II of this filing.

EXHIBIT III
(Question 57)

Graphnet, Inc. v. MCII, Civ. No. 93-2046, USDC New Jersey.

This is an antitrust and rate discrimination suit filed in federal court in Newark, N.J. alleging, among other claims, that MCI International, Inc. ("MCII") is charging predatory rates to its customers for telex traffic terminating to Graphnet customers. This case grew out of a tortious interference suit against MCII in New York state court for the hiring of certain Graphnet employees. In January 1994, MCII filed a motion for judgment on the pleadings, seeking dismissal of the antitrust counts.

In April and May 1994, the U.S. District Court in New Jersey dismissed Graphnet's antitrust conspiracy claim, and stayed Graphnet's attempted monopolization claim -- and its remaining state law claims -- pending an FCC determination of the reasonableness of MCII's customer tariff rates for telex messages. Graphnet has a pending formal complaint with the FCC, which MCII, represented by MCI Regulatory, has answered.

In February 1994, MCII filed a separate action against Graphnet in federal court to recover over \$700,000 in past due charges for voice traffic. MCII was awarded its past due charges on its claim following a trial on the merits.

**EXHIBIT IV
(Certification)**

Due to the absence of Applicant from the United States on the date of execution, and as permitted by Section 25.110(e) and Section 1.743(b) of the Commission's Rules, Joel S. Winnik of Hogan & Hartson L.L.P. is signing this Form 490 in his capacity as attorney for BT.

ORIGINAL

VOLUME TWO, SECTION J

**APPLICATION FOR TRANSFER OF CONTROL OF
DIRECT BROADCAST SATELLITE LICENSEE**

Pursuant to Section 100.80 of the Commission's Rules, 47 C.F.R.

§ 100.80, MCI Communications Corporation ("MCIC") and British Telecommunications plc ("BT") hereby request consent to the transfer of control to BT of the Direct Broadcast Satellite ("DBS") license, if received by MCIC subsidiary MCI Telecommunications Corporation ("MCIT"), in connection with the proposed merger of MCIC and BT. 1/

(i) Description of Proposed Merger

A detailed description of the Merger Agreement, including information about the ownership, officers and directors of the unified telecommunications company created by the merger, Concert plc ("Concert"), is contained in Volume One, Section II of this filing. A copy of the Merger Agreement is contained in Volume Three, Section D of this filing.

(ii) Transferor and Transferee

The transferor is: MCI Communications Corporation, 1801 Pennsylvania Avenue, N.W., Washington, D.C., 20006.

1/ See Application of MCI Telecommunications Corporation For An Initial Construction and Launch Authorization in the Direct Broadcast Satellite Service, File No. 73-SAT-P-96 (filed Feb. 27, 1996).

The transferee is: British Telecommunications plc, BT Centre, 81 Newgate Street, London EC1A 7AJ, England.

A list of the current officers and directors of BT, MCIC and MCIT is contained in Volume III, Section B of this filing. A description of the relevant aspects of the post-merger corporate organization of BT and MCIC is contained in Volume III, Section C of this filing.

(iii) Public Interest

A demonstration that the proposed merger is in the public interest is contained in Volume One, Section III of this filing.

(iv) Legal Qualifications

The proposed merger will have no negative effect on MCIT's ability to carry out its due diligence obligations, including the requirements of Section 100.19 of the Commission's Rules, 47 C.F.R. § 100.19.

BT is fully qualified to be in ultimate control of MCI's DBS operations. Under the Commission's DBS policy, whether a DBS license is characterized as a non-common carrier, common carrier or broadcaster depends on the intent of the licensee and the nature of its operations. ^{2/} MCIT, which will remain the licensee following the proposed merger, does not intend to operate its DBS system as either

^{2/} See Direct Broadcast Satellite Service, 90 FCC 2d 676, 709 (1982); Subscription Video, 2 FCC Rcd 1001, 1006 (1987), aff'd National Association for Better Broadcasting v FCC, 849 F.2d 665, 668-69 (D.C. Cir. 1988); Subscription Video Services, 4 FCC Rcd 4948, 4949 n.1 (1989).

a common carrier or a broadcaster. For this reason, the foreign ownership restrictions of Section 310(b) of the Act and Sections 100.11(c)-(e) of the Commission's Rules should not apply to the DBS license to be received by MCIT. ^{3/} Therefore, BT is legally qualified to be in ultimate control of the DBS license. For the same reason, the effective competitive opportunities test, which applies only to common carrier radio licenses, is inapplicable here.

(v) No Other Full-CONUS Interest

BT hereby certifies that neither it, nor any party with an attributable interest in the license to be awarded to MCIT, has an attributable interest in any channels at any other full-CONUS location. No divestiture is required to comply with the spectrum limitation.

(vi) Certification of Compliance with Anti-Drug Abuse Act

Pursuant to Part 1, Subpart P of the Commission's Rules (Sections 1.2001 et seq.), BT certifies that neither it nor any party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 853a.

^{3/} All radio licenses are subject to Section 310(a) of the Act, which specifies that "[t]he station license required under this Act shall not be granted to or held by any foreign government or the representative thereof." 47 U.S.C. § 310(a). There is no question but that BT's ownership structure is in compliance with Section 310(a) of the Communications Act. BT is neither a foreign government nor a representative of a foreign government. BT is a publicly held company controlled by its public shareholders.

(vii) Statutory Waiver

Pursuant to Section 304 of the Communications Act of 1934, as amended, BT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise.

CONCLUSION

Accordingly, Applicants respectfully request that the Commission grant this transfer of control.

Respectfully submitted,
